Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 03 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's amendment dated 09/19/2005 has been received and entered. By the amendment, claim 1 and newly added claims 3-6 are now pending in the application.

Double Patenting

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 1 and 3-6 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 6,781,644. Although the conflicting claims are not identical, they are not patentably distinct from each other because both application and patent disclose a same LCD in which a first bent contact-slit is formed between a first gate layer of a plural gate layers and a first area where a first drain layer of a plural drain layers adjacent to the first gate layer and between the first area where the first drain layer and a first storage electrode layer of the plural storage electrode layers adjacent to the first area.

It is noted that although the instant application is a divisional of the parent application 09/583,530 (now US 6,781,644), the Double Patenting rejection is still applied to the rejected

claim 1 since the allowable subject matter in the parent case is now recited in the claim 1 of the instant application.

Response to Arguments

3. Applicant's arguments filed 09/19/2005 have been fully considered but they are not persuasive.

Applicant's argument is that the Examiner may not apply a double parenting rejection because the Examiner made a requirement for restriction in the parent application and the patent issuing from the parent application cannot be used as a reference against the divisional application (amendment, page 8). The Examiner agrees that the Examiner made a requirement for restriction in the parent application and the Examiner also note that the instant application is a divisional of the parent application 09/583,530, now US 6,781,644. However, as note in the previous office action, at the time of the requirement of restriction was made, the allowed subject matter from the parent application has not been yet claimed in the method claim. The amendment dated 05/10/2005, claim 1 has been amended to include such allowable subject matter. Therefore, the allowable subject matter of the instant application would be as same as the parent application. In other words, the double-patenting rejection is proper in this case.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 2871

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dung Nguyen whose telephone number is 571-272-2297. The examiner can normally be reached on Tuesday-Friday.
